Leaving the city you head over the magnificent Westgate Bridge. This bridge offers awesome views of the Docklands, as well as a panoramic view of the city skyline. You will soon arrive at Geelong and to Corio Bay. Corio Bay is a wonderful mix of old wharves, wool stores and a fully restored 1930s sea bathing complex. See wonderful examples of century old housing and the 100 brightly painted bollards dotted around the bay depicting some of Geelong's local historic characters, each having its own story to tell.

At Torquay the Great Ocean Road starts. Known as the world's most inspiring coastal drive, follow its winding trail through the lush Otway rainforests, to the breathtaking, windswept drama of the Shipwreck Coast. For much of the way the road clings to the coastline, twisting and turning, every bend revealing a sight more spectacular than the last. At Lorne you will visit a lookout perched high on the hillside where you really get to see the Great Ocean Road from a bird like perspective. Another highlight of the day is a stop at Kennett River. In this area, high in the trees is a colony of wild koalas. See these creatures in their natural habitat, hanging from trees and looking after their young, oblivious to their human onlookers.

After lunch in Apollo Bay, you will make your way to the Shipwreck coast area of the Great Ocean Road; your first stop, The Twelve Apostles. These giant rock stacks soar from the swirling waters of the Southern Ocean and are a central feature of the spectacular Port Campbell National Park. The dramatic and imposing limestone cliffs that are the backdrop to the Apostles tower up to 70 metres, while the tallest of the rock stacks is around 45 metres high. Venturing further west you will visit Loch Ard Gorge. Your first view will be of towering cliffs, sparkling blue-green sea and a small, sandy beach. It's hard to imagine that the drama of one of Victoria's most tragic shipwrecks was played out at this very spot more than 120 years ago, giving its name to the gorge.

8:00 am This morning depart in your coach for your journey to Christchurch via Mount Cook. Your journey begins by following the Kawarau River to the township of Cromwell. You then cross the Lindis Pass, which links northern central Otago with Mt. Cook and the Mackenzie Country. This inland route winds through some of the most evocative hill country to be found in New Zealand, with the forever-present Southern Alps splitting the South Island distinctly into west and east. Continue north to Omarama and the southern most tip of Lake Pukaki, before following the shoreline to Mt. Cook village.

12:00 pm Whilst at Mt Cook, you have the opportunity (weather permitting) to take an OPTIONAL ski plane flight high over mountainous landscapes to the Tasman Glacier. The breathtaking scenery and glacier landing is an exciting experience.

01:30 pm After your visit, depart Mt Cook for Christchurch, retracing your route along the shoreline of Lake Pukaki to Lake Tekapo, a turquoise glacial lake. A stop is made at the lake's edge to look at the simple stone Church of the Good Shepherd and nearby, the bronze sheep dog.

Continue through this windswept plateau of rolling tussock country, via the townships of Fairlie and Geraldine. The road then takes you across the patchwork quilt Canterbury Plains to Christchurch city.
