Day 1: Arrival in Nairobi and Drive to Aberdares National Park

Arrive in Jomo Kenyatta International Airport, flight TBA. Meet driver-guide and after safari briefing, drive to Aberdares National Park. Well known to the world as the home of succession where in came a princess and out went the Queen of England while at Treetops lodge, Aberdares is a land of fortune and diversity. The Park got its name from Lord Aberdares, one of the founder members of the Royal Geographical Society. Located in the central highlands, west of Mount Kenya and 160kms from Nairobi, the foothills of the Aberdares National Park is covered with huge trees, which, as you go higher, gradually give way to bamboo forests. From about 3, 000 meters upward the landscape consists primarily of alpine moorland which gives way to an area of grass land with, from time to time, giant lobelias presenting an attractive contrast. Try this destination of fortunes.-and who knows? You might be the next one queen or king!

Attractions: The major physical attractions: Lesatima and Kinangop peaks, numerous waterfalls, Twin & Elephant hills, Table Mounts, black rhinos, elephant, buffalo, giant forest hog, lion, leopard, baboon, black & white colobus and sykes monkeys are abundant. Bird viewing is incredible with over 250 species of birds recorded.

Lunch at the hotel and enjoy your afternoon and evening watching wildlife from the hotel terrace as they come to drink water at the waterhole.

After breakfast drive to Samburu Game Reserve arriving for lunch. Afternoon game drives in Samburu Game Reserve. Samburu National Reserve was one of the two areas in which conservationists George and Joy Adamson raised **Elsa the Lioness**. Their story was made famous by the bestselling book and award-winning movie "Born Free". **Samburu National Reserve** is situated on the banks of the Ewaso Ngiro River in the dry northern Kenya and neighbors the homes of the Samburu tribe of Kenya, a tribe known for their remote culture, pastoral and nomadic way of life.

The presence, of the Ewaso Ngiro River - and its shady trees - attracts plenty of wildlife. Giraffe, large herds of elephants, buffalo, gerenuks, gazelle, waterbuck and zebra (including the endangered Grevy's zebra) from the surrounding savannah plains trek to the water , Lion, leopard and cheetah are also quite easy to spot, thanks in part

to the lack of grass cover. The reserve provides the opportunity to see wildlife that only lives in the dry north of Kenya; namely: the long necked gerenuk, Grevy's zebra, reticulated giraffe and Beisa onyx. The elusive Kenya leopard is often known to visit the park, especially in the evenings.

Birdlife is as plentiful as wildlife at Samburu National Reserve, which boasts over **350 different species of birds** including vultures, kingfishers, marabouts, bateleurs, guinea fowl, Somali ostriches and others.

Optional visit to a Samburu Cultural Village at US \$27 (price guaranteed only with advanced booking)

Tsavo East National Park

Tsavo East is the largest protected area in Kenya (11,747 square kilometers), a land of unparalleled biodiversity and naturally home to Africa's "Big Five" – black rhino, Cape buffalo, elephant, leopard, and of course, lion. Though vast in size, the park's sparse foliage and essentially flat surface allows for easier wildlife spotting and it's not uncommon to come upon the unique Tsavo lions whose adult males lack the familiar manes.

The film "The Ghost and the Darkness" tells the story of the Tsavo's legendary lions known as 'man-eaters' that attacked workers who were building the Kenya-Uganda railway in the late 1800s. Some of Tsavo East's popular attractions are Mudanda Rock, Yatta Plateau and Lugard Falls.

Great herds of elephants roll in the red-dust soil here and gather at essential watering holes to sustain life. The images of these giants spraying each other are one of delight and never to be forgotten. During your game drives here you can also come across eland, gerenuk, impala, Masai giraffe among other animals beside the over 500 birds species like the black kite, lovebird and sacred ibis await your discovery.

The Galana River flowing through the park creates a lush line of greenery cutting across the dusty savannah. You'll find pods of hippos, crocodile and waterbuck adding to the diversity in this unpredictable reserve.

With so many wildlife species within the diverse landscape, you will be delighted and thrilled every moment of your personalized Kenya dream tour. Follow in the footsteps of some of Africa's greatest explorers and endemic tribes during your safari tour activities.

The Park has over 60 species of mammals and over 400 birds species. The Park is famous of its dramatic sceneries, Mzima Springs (with its underwater hippo watching point), the Shetani lava flow on the western precinct and Lake Jipe and Chala in the southwestern corners.

The park is an immense panorama of savannah broken by dark volcanic lava beds, unexpected vistas, ancient baobab trees and lush oases fed by underground springs. Keep your eyes open for giraffe as they feast on the treetops and don't be surprised to see buffalo, leopard and rhino as well, especially at the Ngulia Rhino Sanctuary. Spot some of the park's smaller treasures like the bushbaby, hartebeest, dik-dik, lesser kudu, gerenuk, impala among others.

Try this destination of fortunes.-and who knows? You might be the

next one queen or king!

Day 1: Arrival in Nairobi and drive Samburu Game Reserve

Arrive in Jomo Kenyatta International Airport, flight TBA. Meet safari driver-guide and after safari briefing and drive to Samburu Game Reserve arriving for lunch, Afternoon game drives in Samburu Game Reserve.

Samburu National Reserve was one of the two areas in which conservationists George and Joy Adamson raised **Elsa**

the Lioness. Their story was made famous by the bestselling book and award-winning movie "Born Free". **Samburu National Reserve** is situated on the banks of the Ewaso Ngiro River in the dry northern Kenya and neighbors the homes of the Samburu tribe of Kenya, a tribe known for their remote culture, pastoral and nomadic way of life.

The presence, of the Ewaso Ngiro River - and its shady trees - attracts plenty of wildlife. Giraffe, large herds of elephants, buffalo, gerenuks, gazelle, waterbuck and zebra (including the endangered Grevy's zebra) from the surrounding savannah plains trek to the water, Lion, leopard and cheetah are also quite easy to spot, thanks in part to the lack of grass cover. The reserve provides the opportunity to see wildlife that only lives in the dry north of Kenya; namely: the long necked gerenuk, Grevy's zebra, reticulated giraffe and Beisa onyx. The elusive Kenya leopard is often known to visit the park, especially in the evenings.

Birdlife is as plentiful as wildlife at Samburu National Reserve, which boasts over **350 different species of birds** including vultures, kingfishers, marabouts, bateleurs, guinea fowl, Somali ostriches and others.

The Park got its name from Lord Aberdares, one of the founder members of the Royal Geographical Society. Located in the central highlands, west of Mount Kenya and 160kms from Nairobi, the foothills of the Aberdares National Park is covered with huge trees, which, as you go higher, gradually give way to bamboo forests. From about 3, 000 meters upward the landscape consists primarily of alpine moorland which gives way to an area of grass land with, from time to time, giant lobelias presenting an attractive contrast. Try this destination of fortunes.-and who knows? You might be the next one queen or king!

Full Itinerary

Day 1: Arrival in Nairobi and Drive to Tsavo East National Park

Arrive in Jomo Kenyatta International Airport, flight TBA. Meet safari driver-guide and after safari briefing, drive to Tsavo East National Park famous for Man Easters lions that attacked and almost brought to a halt the construction of Kenya-Uganda Railway. It is also home to Lugards falls, Yatta Plateau, Large herds of elephants Rhinos, Hirola (Hunters Hartebeest) and other wildlife.

Tsavo East is the largest protected area in Kenya (11,747 square kilometers), a land of unparalleled biodiversity and naturally home to Africa’s “Big Five” – black rhino, Cape buffalo, elephant, leopard, and of course, lion. Though vast in size, the park’s sparse foliage and essentially flat surface allows for easier wildlife spotting and it’s not uncommon to come upon the unique Tsavo lions whose adult males lack the familiar manes.

The film “The Ghost and the Darkness” tells the story of the Tsavo’s legendary lions known as 'man-eaters' that attacked workers who were building the Kenya-Uganda railway in the late 1800s. Some of Tsavo East's popular attractions are Mudanda Rock, Yatta Plateau and Lugard Falls.

Great herds of elephants roll in the red-dust soil here and gather at essential watering holes to sustain life. The images of these giants spraying each other are one of delight and never to be forgotten. During your game drives here you can also come across eland, gerenuk, impala, Masai giraffe among other animals beside the over 500 birds species like the black kite, lovebird and sacred ibis await your discovery.

The Galana River flowing through the park creates a lush line of greenery cutting across the dusty savannah. You’ll find pods of hippos, crocodile and waterbuck adding to the diversity in this unpredictable reserve.

It is separated from its sister park, Tsavo East by the Nairobi-Mombasa highway and rail line. Everything about Tsavo West National Park is extreme and striking. The contours and variety of its land, the deep colors of desert, sky and springs, and the surprise of nearby wildlife emerging from the scrub. With so many wildlife species within the diverse landscape, you will be delighted and thrilled every moment of your personalized Kenya dream tour. Follow in the footsteps of some of Africa's greatest explorers and endemic tribes during your safari tour activities.

The Park has over 60 species of mammals and over 400 birds species. The Park is famous of its dramatic sceneries, Mzima Springs (with its underwater hippo watching point), the Shetani lava flow on the western precinct and Lake Jipe and Chala in the southwestern corners.

The park is an immense panorama of savannah broken by dark volcanic lava beds, unexpected vistas, ancient baobab trees and lush oases fed by underground springs. Keep your eyes open for giraffe as they feast on the treetops and don't be surprised to see buffalo, leopard and rhino as well, especially at the Ngulia Rhino Sanctuary. Spot some of the park's smaller treasures like the bushbaby, hartebeest, dik-dik, lesser kudu, gerenuk, impala among others.

Major Attractions: Recent volcanoes, lava flows and caves with potential for geological and cave exploration, and hiking. Mzima Springs & underwater hippo watching, Ngulia Rhino Sanctuary, Lake Jipe, Mt. Kilimanjaro, elephant, rhino, diverse bird and plant species. And if lucky – Wild dogs.

Day 1: Arrival in Nairobi and drive to Aberdares National Park.

Arrive in Jomo Kenyatta International Airport, flight TBA. Meet driver-guide and after safari briefing, drive to Aberdares National Park, Well known to the world as the home of succession where in came a princess and out went the Queen of England while at Treetops lodge, Aberdares is a land of fortune and diversity. The Park got its name from Lord Aberdares, one of the founder members of the Royal Geographical Society. Located in the central highlands, west of Mount Kenya and 160kms from Nairobi, the foothills of the Aberdares National Park is covered with huge trees, which, as you go higher, gradually give way to bamboo forests. From about 3, 000 meters upward the landscape consists primarily of alpine moorland which gives way to an area of grass land with, from time to time, giant lobelias presenting an attractive contrast. Try this destination of fortunes.-and who knows? You might be the next one queen or king!

Attractions: The major physical attractions: Lesatima and Kinangop peaks, numerous waterfalls, Twin & Elephant hills, Table Mounts, black rhinos, elephant, buffalo, giant forest hog, lion, leopard, baboon, black & white colobus and sykes monkeys are abundant. Bird viewing is incredible with over 250 species of birds recorded.

Lunch at the hotel and enjoy your afternoon and evening watching wildlife from the hotel terrace as they come to drink water at the waterhole.

Their story was made famous by the bestselling book and award-winning movie "Born Free". **Samburu National Reserve** is situated on the banks of the Ewaso Ngiro River in the dry northern Kenya and neighbors the homes of the Samburu tribe of Kenya, a tribe known for their remote culture, pastoral and nomadic way of life.

The presence, of the Ewaso Ngiro River - and its shady trees - attracts plenty of wildlife. Giraffe, large herds of elephants, buffalo, gerenuks, gazelle, waterbuck and zebra (including the endangered Grevy's zebra) from the surrounding savannah plains trek to the water. Lion, leopard and cheetah are also quite easy to spot, thanks in part to the lack of grass cover. The reserve provides the opportunity to see wildlife that only lives in the dry north of Kenya; namely: the long necked gerenuk, Grevy's zebra, reticulated giraffe and Beisa onyx. The elusive Kenya leopard is often known to visit the park, especially in the evenings.

Birdlife is as plentiful as wildlife at Samburu National Reserve, which boasts over **350 different species of birds** including vultures, kingfishers, marabouts, bateleurs, guinea fowl, Somali ostriches and others.

Tsavo East National Park

Tsavo East is the largest protected area in Kenya (11,747 square kilometers), a land of unparalleled biodiversity and naturally home to Africa's "Big Five" – black rhino, Cape buffalo, elephant, leopard, and of course, lion. Though vast in size, the park's sparse foliage and essentially flat surface allows for easier wildlife spotting and it's not uncommon to come upon the unique Tsavo lions whose adult males lack the familiar manes.

The film “The Ghost and the Darkness” tells the story of the Tsavo’s legendary lions known as 'man-eaters' that attacked workers who were building the Kenya-Uganda railway in the late 1800s. Some of Tsavo East's popular attractions are Mudanda Rock, Yatta Plateau and Lugard Falls.

Great herds of elephants roll in the red-dust soil here and gather at essential watering holes to sustain life. The images of these giants spraying each other are one of delight and never to be forgotten. During your game drives here you can also come across eland, gerenuk, impala, Masai giraffe among other animals beside the over 500 birds species like the black kite, lovebird and sacred ibis await your discovery.

The Galana River flowing through the park creates a lush line of greenery cutting across the dusty savannah. You’ll find pods of hippos, crocodile and waterbuck adding to the diversity in this unpredictable reserve.

It is separated from its sister park, Tsavo East by the Nairobi-Mombasa highway and rail line. Everything about Tsavo West National Park is extreme and striking. The contours and variety of its land, the deep colors of desert, sky and springs, and the surprise of nearby wildlife emerging from the scrub. With so many wildlife species within the diverse landscape, you will be delighted and thrilled every moment of your personalized Kenya dream tour. Follow in the footsteps of some of Africa’s greatest explorers and endemic tribes during your safari tour activities.

The Park has over 60 species of mammals and over 400 birds species. The Park is famous of its dramatic sceneries, Mzima Springs (with its underwater hippo watching point), the Shetani lava flow on the western precinct and Lake Jipe and Chala in the southwestern corners.

The park is an immense panorama of savannah broken by dark volcanic lava beds, unexpected vistas, ancient baobab trees and lush oases fed by underground springs. Keep your eyes open for giraffe as they feast on the treetops and don’t be surprised to see buffalo, leopard and rhino as well, especially at the Ngulia Rhino Sanctuary. Spot some of the park’s smaller treasures like the bushbaby, hartebeest, dik-dik, lesser kudu, gerenuk, impala among others.

Major Attractions: Recent volcanoes, lava flows and caves with potential for geological and cave exploration, and hiking. Mzima Springs & underwater hippo watching, Ngulia Rhino Sanctuary, Lake Jipe, Mt. Kilimanjaro, elephant, rhino, diverse bird and plant species. And if lucky – Wild dogs.

Day 1: Arrival in Nairobi and Drive to Aberdares National Park

Arrive in Jomo Kenyatta International Airport, flight TBA. Meet driver-guide and after safari briefing, drive to Aberdares National Park. Well known to the world as the home of succession where in came a princess and out went the Queen of England while at Treetops lodge, Aberdares is a land of fortune and diversity. The Park got its name from Lord Aberdares, one of the founder members of the Royal Geographical Society. Located in the central highlands, west of Mount Kenya and 160kms from Nairobi, the foothills of the Aberdares National Park is covered with huge trees, which, as you go higher, gradually give way to bamboo forests. From about 3, 000 meters upward the landscape consists primarily of alpine moorland which gives way to an area of grass land with, from time to time, giant lobelias presenting an attractive contrast. Try this destination of fortunes.-and who knows? You might be the next one queen or king!

Attractions: The major physical attractions: Lesatima and Kinangop peaks, numerous waterfalls, Twin & Elephant hills, Table Mounts, black rhinos, elephant, buffalo, giant forest hog, lion, leopard, baboon, black & white colobus and sykes monkeys are abundant. Bird viewing is incredible with over 250 species of birds recorded.

Lunch at the hotel and enjoy your afternoon and evening watching wildlife from the hotel terrace as they come to drink water at the waterhole.
